Dear DHS program user forum,

I am working with Bangladesh DHS and GPS data, and I am wondering that the GPS data of DHS2014 seems GPS of SPA2014, not DHS.

I opened the other .shp files to find GPS data of DHS2014, but so far I couldn't find it anyfile. I would like to know how I get the data.

I really would appreciate your help.

Best regards,
michiko
