Subject: Replacements?

I haven't been able to find any documentation or associated variables for replacement households. I know DHS works hard to get the targeted/initially listed households, but were there ever replacements if a household was untrackable, unavailable, or unwilling to participate? 100% of households are listed as "completed" which can't be right.

On an individual level, what happened if an eligible male/female were not available? Were they excluded? Is there a record of this?

Thanks!
