Thank you for the quick response.

I doublechecked the procedure to estimate total number of households as advised. The numbers of households in the data sets(individual women file) still do not correspond to the reports for the 3 survey years.

2003 - 6159 vs 8561

2008/09 - 6458 vs 9057

2014 - 24705 vs 36430

Please let me know if there is something I have missed.

Thank you.
