Hey!

I'm conducting a study on Water/Sanitation/Fuel variables in India by district and their effect on Antenatal Care, and Maternal & Child Health at large.

I want to run a Moran's I analysis and find hotspots of high or low-quality antenatal care.

But I can't seem to find which districts the clusters correspond to anywhere! I saw there were similar files for the 1992 and 1998 NFHS, here:

But can't find them anywhere for the most recent one (NFHS-4 2015-16).

It'd be great if one of you could help me out with this - thanks in advance!
