hy
i hope you and your family are doing well and taking all the necessary precautions under this health care pandemic. i am continuously in a contact with you. thank you so much for your positive response. Actually i am again stuck in a variable (community level wealth quantile). kindly guide me how i can generate the community level wealth index as it is generated in DHS for individual level into five categories (poorer, poor, middle, rich, richer). i am using (v190) variable from DHS data. i am waiting for your positive response. stay happy and blessed.

Regards
Rubab Saleem.
