Subject: Ethnicity variable in NDHS 2016 Posted by PintuPaul on Tue, 02 Mar 2021 05:38:39 GMT

I am using 'PR' file of NDHS (2016) for my analysis. I could not find the 'Ethnicity' variable in either household or household members files. However, the variable (v131) is available in the Women file (IR). Can anyone tell me how can I find it for each member of the household?

Thank you!
