Hello,

I am also using Nigeria 2008 data, but I do not see hv023 and hv025. I only see v023 and v025.  
Would the correct code in stata be:

```
gen wgt=v005/1000000  
svyset[pw=wgt], psu(v021) strata(v023xv025)
```
