Thank you so much for all the help!

I had one last question though, again regarding the various indicators. Frequency of internet use during the last 12 months is indeed asked both at the women's and men's questionnaire in DHS VII (question 121 for women's questionnaire). However, I can't find this variable (should be v171b according to the DHS Guide for the women's file) in the couple's recode.

Thanks in advance!

Kind regards,
Zoë
