---

Thank you very much, Sir.

Dear Sir, I would like to reproduce the table 17.6 on page 296 of 2015-2016 Myanmar DHS final report.

But, I could not get the exact frequency and percentage for

- "Residence"
- "States/Regions"
- "Wealth quintile".

Could you please check my do file?

Which variable was used as "wealth quintile" in the report? When I tried with hv270 or hv270a, the frequency and percentages are differ from the tables. Could you please mention how to generate the variable "wealth quintile"?

With Deep Respect

Nyan Linn
