Hello,

Food insecurity questions were not asked in the Ethiopia survey as far as I can see.

For women's BMI, please read: [https://www.dhsprogram.com/Data/Guide-to-DHS-Statistics/index.htm#t=Nutritional\\_Status.htm%23Percentage\\_of\\_women\\_bybc-2&rtocid=\\_14\\_9\\_1](https://www.dhsprogram.com/Data/Guide-to-DHS-Statistics/index.htm#t=Nutritional_Status.htm%23Percentage_of_women_bybc-2&rtocid=_14_9_1)

The Stata code for women's BMI can be found here to match the final report:

[https://github.com/DHSProgram/DHS-Indicators-Stata/blob/master/Chap11\\_NT/NT\\_WM\\_NUT.do](https://github.com/DHSProgram/DHS-Indicators-Stata/blob/master/Chap11_NT/NT_WM_NUT.do)

There is also SPSS code if you are using SPSS and not Stata, this is the link to the SPSS code:

[https://github.com/DHSProgram/DHS-Indicators-SPSS/blob/master/Chap11\\_NT/NT\\_WM\\_NUT.sps](https://github.com/DHSProgram/DHS-Indicators-SPSS/blob/master/Chap11_NT/NT_WM_NUT.sps)

We cannot provide this data in table form. You would need to construct the variables yourself after downloading the data files and running the provided code.

Please visit our data page to learn how to register and download the data you need:

<https://www.dhsprogram.com/data/Using-Datasets-for-Analysis.cfm>

Thank you.

Best,

Shireen Assaf

The DHS Program
