Subject: Re: Niger 2012 GPS Posted by Gillian on Fri, 06 Jun 2014 17:26:37 GMT View Forum Message <> Reply to Message

My apologies if I missed this in the final report, but can you tell me how the de facto residence region variables (v101) align with the region names? Is it simply the order shown in some of the tables in the report: 1 = Agadez, 2 = Diffa and so on up to 8 = Niamey? Also, since we don't have the GPS data, is any of the sampling information available (Zones de Dénombrement, département, canton, etc.) - anything that would help with the geographic information a bit? Thanks!
