Dear Bridgette,

Thank you very much for your reply! I really appreciate it.

I would just appreciate some clarification on the hv108 and hv109 variables then, as I understand from hv109 that it is the highest level completed by an individual. However, in some case hv108 indicates that an individual has more years of schooling. For example, every time an individual has 10 years of schooling, it is coded as "complete secondary education", however, there are cases when an individual has more than 10 years and it says "incomplete secondary education", how is this so? I assume if an individual has at least 10 years of schooling from hv108, then they should have completed secondary schooling?

Best wishes,  
Dahab
