Subject: sick child observations/visits Posted by Specialkk on Tue, 12 Oct 2021 15:49:28 GMT View Forum Message <> Reply to Message

Dear DHS Forum:

I was wondering if you could help me find the appropriate variable for total sick child visits and observations. Is this taken from the facility dataset (scf (total sick child observations) or total number of sick child at facility (v077) or from the sick child dataset?

Thanks for your consideration,

Kajal
