Subject: Re: Merging PR file with KR file
Posted by geoK on Mon, 09 Jun 2014 19:39:35 GMT

Thank you. I have done the merging several times but never between KR and PR, which I think is not covered in any other topic among the discussions, if I am not wrong. I am struggling this time in getting the variables (and cases) matching but I will try to follow the table you kindly sent and some other discussions. Thanks, Regards.
