Subject: Create a daughters' file on Stata
Posted by Louthb on Sat, 22 Jan 2022 16:27:41 GMT

Hello,

I am stating with Stata and DHS's use.
I want to have the number of girls aged 0 to 14 who have been circumcised in Guinea for all the available surveys.
I know you can have this information with the base IR but I don't know how to do this with Stata.

Many thanks in advance
