For Peru DHS 2012, the Stata 'svy' commands like (. svy: tab d118a) are not working on the 'Domestic Violence' module variables. The 'svy' setting was done using weight= d005/1000,000, PSU=v021, and Strata=v023. However, using the simple tab command for the variable 'd118a', I get an output. Could you help me understand what am I missing here.

Thanks
