Hello,

in my analysis of Rwanda and Kenya (2015 and 2020) I'm trying to assess associations between health seeking behavior and bed net use (HV227) as well as ITN use (HML10) but I cannot find the exact question related to the HML10 variable, plus I have more than 50% missings in this variable. Can you please help me on that?

Thank you in advance for your help,
Elisabetta
