Following is response from DHS Research & Data Analysis Director, Tom Pullum:

You seem to have ignored the earlier response. A difference such as "DPT1-DPT3" is not part of the calculation of a dropout rate.

Figure 8.1 is based on table 8.1, on page 80 of the final report. That table does not include dropout rates. Please tell us a specific number in table 8.1 that you are unable to match.
