Dear User,
In the zip file(s) you downloaded, there should have been a file with an extension .MAP. It comes along with the data file,dictionary file, documentation file, frequency files (both weighted and unweighted).

For example, ETIR61.ZIP (Ethiopia hierarchical data set used with CSPro)contains:

ETIR61.DAT data file
ETIR61.DCF dictionary file
ETIR61.DOC documentation files (gives list of all country specific variables and details about the data)
ETIR61.FRQ unweighted frequencies
ETIR61.FRW weighted frequencies
ETIR61.MAP the map file
Thanks!
