Following is a response from DHS Research & Data Analysis Director, Tom Pullum:

For some general information about the calendar, we have the Contraceptive Calendar Tutorial at <https://www.dhsprogram.com/data/Calendar-Tutorial/index.cfm>. I assume you are familiar with that. For the interpretation of survey-specific codes, I usually am able to find them in the questionnaire. Go to the final reports on these surveys, the questionnaire in an appendix, and find the instructions for interviewers for filling in the calendar. Please let us know if this does not include the letters you are looking for.
