Subject: India- NFHS-4 Discrepancy in getting data data on ever experienced physical violence
Posted by ritesh.laddha on Wed, 07 Sep 2022 09:02:15 GMT

Hi, I am trying to generate table 16.1 of the NFHS-4 detailed report using Stata. But found that results are not synced with the report. I am using individual file and use followed command -

gen wt=d005/1000000

gen dv_phy = 0 if v044==1
replace dv_phy =1 if d106==1 | d107==1
replace dv_phy = 1 if d130a>=1 & d130a<=4
replace dv_phy = 1 if d115y==0
replace dv_phy = 1 if d118y==0

tab dv_phy [iweight=wt]

I am getting pv = 29.56% instead of 26.8% mentioned in the report.
Please help.
