Hi Jessy,

Please find the link for Github, where you would find the R code for all DHS chapters, which are same for all countries. If not, could ask DHS for help (most probably is same for all countries).

<https://github.com/DHSProgram/DHS-Indicators-R>

If this also doesn't work, let me know, if I have codes, will share with you (been long, so kinda lost). Good Luck

Regards

Sajama Nepali
