Subject: Re: Resampling data to obviate the need for weighting Posted by Kene David Nwosu on Mon, 19 Dec 2022 15:03:14 GMT View Forum Message <> Reply to Message

Thank you very much for the detailed answers! I appreciate the explanation of the reasons why weights are required even within strata. I will proceed as you suggest, by having students work without weights, but mentioning that their results are approximate. Thank you again for your world-improving work.
