Subject: Re: Error in computing TFR from DHS.rates package Posted by sarojaadhikari2@gmail.com on Thu, 26 Jan 2023 12:25:44 GMT View Forum Message <> Reply to Message

I am using India's DHS data from the 2005-06 survey. I am using individual recode files to calculate TFR by using the DHS.rates package to calculate TFR in R. following is the code I used fert(data,"tfr",JK="Yes",CL=95,class="education")

I used the same function for other countries and it was working fine.
