Sorry. I tried to generate delivery costs using NFHS 4 data. I cannot match the report. Can you please help with the same? Table No: 8.20.

The values I am getting are:

Public: 3152

Private: 17126

Total: 7069

Whereas the actual figures in the table are:

Public: 3197

Private: 16522

Total: 7935
