Dear Experts,

I am waiting for your response.

If I am using the below mentioned syntax for IR file. They give me a note in the results:

Note: 4 strata omitted because they contain no population members.

Is this any problem? and also, in the results they don't show in the region results of Gilgit Baltistan.

or we can use simple this syntax for Poisson.

poisson CEBR i.WEA i.AgeG i.Region i.WI i.PR

Kindly help me in this matter.  
Regards.
