The variable 'hv109' that is labeled as "Educational attainment" does not have the "complete secondary" category in it.

from the .do file that lists all the labels I found the below:

```
label define HV109
```

```
  0 "No education"
```

```
  1 "Incomplete primary"
```

```
  2 "Complete primary"
```

```
  3 "Incomplete secondary"
```

```
  4 "Complete secondary"
```

```
  5 "Higher"
```

```
  8 "DK"
```

The questionnaire also has a question on completed grade. Is there any reason why complete secondary as a category in the data.
