I went through the DHS Disability Module. For most of the questionnaires the responses are on a Likert scale. Example:

1 = NO DIFFICULTY SEEING

2 = SOME DIFFICULTY

3 = A LOT OF DIFFICULTY

4 = CANNOT SEE AT ALL

8 = DON'T KNOW

However, in the PR file, I have details only on the type of disability the person has. May I know if I must download or look for data in another file or for India, the details about the severity of Disability were not collected?

Hope to hear from you soon.

Thanks and Regards
