Women and men who are eligible for the individual questionnaire are each asked what their caste/tribe is and whether they belong to a scheduled caste, a scheduled tribe, an other backward class, or none of these. However, although the first question specifies the caste/tribe, there are more than 1,000 castes/tribes and there is no variable for those castes/tribes. Also, a much smaller percentage of men than women are eligible for an individual interview.
