Subject: Maternal Mortality in Ghana Posted by Shine on Sun, 23 Apr 2023 16:54:44 GMT View Forum Message <> Reply to Message

Dear All,

I am trying to calculate maternal mortality ratio for Ghana using the Ghana Maternal Health Survey (MHS) 2017 data. I read in the report that the MHS is the same as the Ghana DHS Special, however, I cannot run the the do-file provided in chapter 16 in the github page as the variables in MHS are coded differently, also, some of the variables in the DHS are not in the MHS. Can I get the do-file used in calculating maternal mortality using the MHS 2017?

Thank You.
