Dear Tom Pullum,

thanks for your response.

In IR file there is variable v501, married (women: v501 = 1), Widowed (women: v501 = 3), Divorced (women: v501 = 4), Separated (women: v501 = 5) data are available but never married (women: v501 = 0) data are not available. I need also this data of v501=0.
