Subject: Maternal Mortality Posted by Shine on Sat, 01 Jul 2023 08:36:35 GMT View Forum Message <> Reply to Message

Dear DHS,

I am working on a spatial analysis for maternal mortality in Nigeria. I have been able to calculate the maternal mortality ratio following the do file in chapter 16 of GitHub. However, I'd like to disaggregate it into the states level. Please how do I go about it?

Thank you.
