Thank you, it has been a great help to me.

I am also trying to integrate data by district over time (NFHS-2 ~ NFHS-5). I found the district names for NFHS-4(2015-2016) and NFHS-5 (2019-2021), and know that there are no data for NFHS-3.

440 unique values were identified for the state/district of NFHS-2, but I cannot find the names of them. There was a file regarding this information in this forum (https://userforum.dhsprogram.com/index.php?t=msg&th=232 &goto=490&#msg_490), but it seems corrupt and is not opening.

Where could I find information on the names of districts? Or how could I match it with other districts in NFHS-4 and NFHS-5?

Thank you again for your help!
