Country name; Tanzania
Survey year: 2015-2016
Dataset name: Household member(PR) and Individual (IR)

Questions

1. How inpatient and outpatient expenditure is computed in the DHS report
2. How the per capital expenditure is computed for both inpatient and outpatient expenditure
3. How the total expenditure was computed
3. How inpatient and outpatient expenditure can be categorised or were categorised in the DHS report for example 0-100= low expenditure
