Thank you

I can't access the API indicator today (31st August 2023, 20:01 China time). There is an error message when using the code I have been using to access the indicators for countries.

```
```{r}
```

```
json_file<- fromJSON(" http://api.dhsprogram.com/rest/dhs/v8/data?countryIds=AO,BF,
BJ,BU,CD,CF,CG,CI,CM,ET,GA,GH,GM,GN,KE,KM,LB,LS,MD,ML,MR,MW,
MZ,NG,NI,NM,RW,SL,SN,ST,SZ,TD,TG,TZ,UG,ZA,ZM&indicatorIds=CN_NUTS_C_HA3")
```

```
Error in fromJSON(content, handler, default.size, depth, allowComments, :
 invalid JSON input
```

```
```
```

Kindly advise me. Thank you
