hannaheow wrote on Thu, 28 May 2020 18:59I think there is a typo in 'Lesotho DHS 2014.xlsx' found here: <https://dhsprogram.com/topics/wealth-index/Wealth-Index-Construction.cfm>
The Analysis N (9402) used in the 'Common' tab is the same as the Analysis N used in the 'Urban' tab. And the Analysis N (2798) used in the 'Rural' tab is the same as the value I found for urban (variable HV025 == 1). Urban+Rural = Common, correct? But this is not the case in the xlsx document.

uno online

Thanks for looking into this!

Sorry, but I can open this link. What happen?
