Subject: KDHS 2014 : Experienced emotional violence in past 12 months by any partner
Posted by sokiya on Mon, 06 Nov 2023 15:44:54 GMT

I am trying to generate the GBV indicators Experienced emotional violence in past 12 months by any partner using the attached do file from DHS GitHub repository and datasets for KDHS 2021. However, I encounter an error variable d130c not found in the line
replace dv_aprtnr_emot = 1 if (dv_prtnr_emot==1 | (d130c>0 & d130c<=3))
Wasn't this a question in DHS 7?
