Following is a response from Senior DHS staff member, Tom Pullum:

If you open the BR file and enter "tab b2 v190 [iweight=v005/1000000], row" you will get what I believe you are looking for, going back in single calendar years. In the BR and KR files, b2 is the calendar year of birth. Note that the household's wealth quintile at the time of the survey is not necessarily what it was in the past. Also, in the IR file, v209, v238, and v208 give the number of births the respondent had in the past year, 3 years, and 5 years (years ago, not calendar years), respectively.
