Subject: Re: State wise childhood mortality rates by wealth quintile Posted by Janet-DHS on Thu, 07 Dec 2023 22:19:36 GMT View Forum Message <> Reply to Message

Following is a response from DHS staff member, Tom Pullum:

So you want the 5 standard rates for 36x5x3 = 540 subpopulations, not counting subtotals? And I assume n's and confidence intervals? Sorry, but DHS cannot help with this.
