Hi, Does anyone know code book to identify household cluster or cluster numbers or any information beyond district numbers in DHS 2018-19 ? I am conducting research to see vulnerability within districts i.e. require info for tehsil/villages within each districts, if that can be provided? Thank you

PS: I don't need any identity information, just data like

District____Village or Tehsil codes/names so I can perform analysis within each district in Pakistan.

Regards

Dr. Khan
