Janet-DHS wrote on Mon, 21 August 2023 13:08 Following is a response from DHS staff member, Tom Pullum:

Can you give me the filename of the "male adolescent dataset"?

In the directory and filename textboxes, enter 'renamed file' and `@replace(item(). name, ' ','_')` respectively. What the above step does is it tells ADF to copy the csv files into a different container called renamed file and replace the blank spaces in file name with an underscore.
