I am trying to merge KR data for children under 5 with the household data HR as well as pregnant women/mothers IR data for Malaria research using Tanzania DHS data for 2023, may you kindly help me when I follow commands I get responses such as

File TZPR825L not found

Or

Invalid filelist:quotes do not match

Or

Master data not sorted

Or variables cluster hh mo\_line do not uniquely identify observations in the master data
