I am trying to identify the province where women reside in the Philippines DHS's. I can find sprov for years 2003, 2008, 2013 and 2017. However I cannot find it for 2022. For the year 2013 I find sprov but there are no value labels to indicate the province name. I.e., there are numbers ranging from 1-98 but nothing to indicate the province name.
