Following is a response from DHS staff member, Tom Pullum:
Your question goes beyond the scope of the user forum. We can only say that the relevant variables are the ones in the IR file that begin with "d" and recommend that you look at publications based on earlier DHS surveys in Tanzania or elsewhere. The DV or IPV questions are widely used. The construction of tables and indicators is given on our GitHub side (https://github.com/DHSProgram/DHS-Indicators-Stata) for the generic chapter 17.
