Dear User,

Here is a response from one of our data processing experts, Mr. Noureddine Abderrahim: V312 gives the most important method used and the order is given by the filter 323 in the woman's questionnaire. However, the survey asked in question 311 about all the methods used by the respondents. The answers to question 311 are stored in the variable V307 of the distributed recode data file.

Thank you!
