Following is a response from DHS staff member, Tom Pullum:

We apologize for the delay in this response. It is more than 3 weeks since your latest post.

If you still have a question, can you please state it more clearly? You say you are not trying to match a table in the final report, but (in your initial post) you said that you were unable to get "the right numbers". How do you know what are "the right numbers"? We can't help if we don't know what, exactly, you are trying to calculate.
