Subject: MR file in NFHS1 and NFHS2

I am trying to locate the self-reported marital status information for men in NFHS 1 and NFHS2. In NFHS 3 to NFHS5 self-reported marital Status information by men is available in MR file while the PR file provides the marital status information reported by the head of the household for all male members of the family. I can see that MR file is unavailable in NFHS 1 AND NFHS2.
In that case, I request your help on two of my queries-

a. Is MR file unavailable for NFHS1 AND NFHS2 because there was no male specific module in these rounds or is the information clubbed elsewhere.
b. Where can I find self-reported marital status information for the men of reproductive ages for NFHS1 AND NFHS2.
