
Subject: API list of surveys with GPS datasets is incomplete

Hi, I noticed the following API request:

```
https://api.dhsprogram.com/rest/dhs/surveys?surveyCharacteristicId=26&surveyStatus=completed&surveytype=DHS&f=html
```

Excludes some surveys that have GPS datasets (surveyCharacteristicId=26), for example, Cambodia 2021, Jordan 2017, Mali 2018, Nigeria 2018, Philippines 2017 and Tajikistan 2017 all have GPS datasets, but do not show up in this API call because code 26 is not in their "surveyCharacteristicId" column.

they do show as available in the datasets query, although not clear how to filter the API call.
<https://api.dhsprogram.com/rest/dhs/datasets?DatasetType=GPS Datasets&f=html>
