Hi there,

I have been working on the Kenya 2022 IR and MR files. I am wondering where I can find the codebook for the variables and values? I cannot tell what the categorical values mean. For example, v766b (Number of sex partners, including spouse, in last 12 months (women)) only presents values 0, 1, and 2. Are these numbers truly 0, 1, and 2, or is there a categorical meaning to them (i.e., representing different ranges or something).

Please let me know.

Thanks!
