Greg,

The Spatial Data Repository website was recently updated to include the ability to compare subnational boundaries from DHS Program surveys. Please use this updated link to view the boundaries for Malawi: <http://spatialdata.dhsprogram.com/boundaries/#view=map&countryId=MW&surveyId=333&level=1>

You may also download the region boundaries by closing the map window and choosing the survey of interest from the table: <http://spatialdata.dhsprogram.com/boundaries/#view=table&countryId=MW>

Please respond if you have any other questions.
